# BLACK FLAG

P O Box 1, Lawndale CA 90260

HELLO, BLACK FLAG NEWSLETTER here, hope your [illegible] as good as mine check me out. New BLACK FLAG bass player CEL REVH[illegible]nounced SAL) will be joining guitar player GREG GINN, vocalist HENR[illegible]S, and drummer ANTHONY MARTINEZ as they embark on a 3 part 20 week [illegible] the U.S. CEL used to play in NIGHTMARE, a band that featured ex-Sta[illegible]bers and was only around for about a year. Now some of you may be sa[illegible] What another line up change!" and I know it's hard to keep up with w[illegible]s really happening with BLACK FLAG but change is one of the greatest t[illegible]gs that the band has going for it in the first place so we just need to wait and see (and hear) what they come up with and hope the right chemical transactions go down in our heads, only then will it all make sense. (Whether you understand it or not is another matter altogether) Besides, the prospect of hitting the road always helps to make a personnel change go smothly and the music to take on a sense of purpose, not to mention to make the tour preperation tasks (like the newsletter) breeze by effortlessly. Cel says it best when he says " I look forward to everything."

The first 6 weeks of the tour, called the IN MY HEAD TOUR '86, will start in California in January, heads to Florida, staying in the south, then heads back hitting the southern cities missed on the way out. The band will then take March off and resume the tour in Virginia in April, doing the east coast and midwest while heading back to California to do the north west and north mid-west in June. Altogether, close to 120 [illegible], and quite a testimony to the obsession BLACK FLAG has had with expressing [illegible]e f.

Yes, TOUR 86 is definetely something to look forward to, but alot has happened since the last tour so let me get a past the frame-o-mind and continue.

ROCKING THE NATION the tour was so massive, that the opening bands came in shifts because they could only take so much time from their lives back in L.A. First was the MINUTEMEN and TOM TROCCOLIS DOG, together we did a week of shows in the southwest and then the MINUTEMEN drove back to L.A. In Lubbock Texas, DC 3 met up with us bringing with them TWISTED ROOTS who took the place of DOG. WE rocked our way to the south and up to Wash D.C. DC 3 moved it on down the line back to SO CAL. IN Dover N.J., SAINT VITUS joined up and DOG resumed it's opening spot to blast through the east coast and mid-west. VITUS moved on from Detriot to do some shows of their own in Illinois. Finally, SWA rendezvoued with the FLAGSHIP in Newport KY, and together with DOG, rocks Canada, the mid-west and the west coast. The best thing to come from it all is that now these bands are going out on tours of their own soon and have a good idea of what to expect. Hopefully, that means they can expect to see you at their show should they come your way.

BLACK FLAG, as you might have seen, held up very well for it being such a long tour. The shows kept getting better and better as we went along although HENRY'S voice really took a whoopin thus the shorter, more thurough tours in 86. THANKS to all of you that were able to make it. Shortly thereafter HENRY ROLLINS set out on a spoken word tour with the FLAG van full of books and myself along as driver. Cutting through the south and then up the east coast, HENRY was no less then ruthless with his honesty and it made for some spellbinding shows. The books sold alright but it's the live thing that the people thrive on.

Henry and I split in New York, he got on a plane for Detriot and did the last week of shows by plane and I drove back to California to hook up with the MINUTEMEN and toured with them as their soundman for a month. Soon after Henry got back, he and Andrea flew to Amstetdam where Henry read in a literary festival that featured the likes of Nick Cave and William Burroughs Henry's now in training so to speak for the upcoming tour but I guess we all, are in a way.

Back here in Redondo Beach at the Global Network offices, many a tour has been booked as of late and it looks like there's more on the way besides the FLAG multi-tours. Raszebrae, Die Kruezen, SAINT VITUS, ANGST, DC 3, Legal Weapon, and SWA are either on tour or are going to be on tour thanks to GLOBAL. Chuck Dukowski, Jordan Schwartz, and Rich Ford are the GLOBAL fulltimers and proof of their handywork is probably coming to a club or hall near you [illegible] you lucky dog.

Antony, meanwhile, has been playing with friends of his in a kind of blues rock band out where he lives in east L.A. Greg has been staying sharp all the while by jamming both bass and guitar with his Linn drum computer he picked up after the tour ended. Greg also produced and played on the new OCTOBER FACTION record known as the "SECOND FACTIONALIZATION". Greg also produced the new "PAINTED WILLIE"records PAINTED WILLIE being one of the bands opening for FLAG on the upcoming tour. Along with PAINTED WILLIE a new band called GONE will be opening the shows; GONE will feature GREG on guitar and shoud promise to make for a rather eclectic display of sounds. Especially when you take into consideration the stuff HENRY might play thru the P.A. between bands. Oh and the P.A! By now you might be familiar with the genius of Dave " RATMAN " Levine and the systems he has designed for the FLAG tours... If not a quick history. For the SLIP IT IN TOUR, Part 1 and 2 we brought what was supposed to have been the new elevated system in CLUB Hollywood (which was once the STARWOOD) but instead it became the FLAG modular system individual speaker cabinets that stacked like building blocks, 6 18" & 8 12" and 4 10" horns on each side with I belive about 7000 Wts. For the LOOSE NUT mega tour it was 6 rectangular cabinets on each side each containing an 18", a12", a 10", 4" horn and a bullet tweeter plus 6 monitors and 9000 watts of power + lights! Even if I could'nt see the band I could see the P.A. and hear everything perfectly for hardly anyone stood up near the speakers! " Pumpin air " as I like to call it- only the air kinda does a number on the ear drums. Just think- what if you could make the ear drum/ ? It would be no problem for RATMAN who is about to unleash his most awesome system to date on the next tour... an incredible 15,000 watts of power pumping out of 16 18" speakers, 15" speakers, 16 10" speakers and 8 4" horns along with 2 soundboards (one for monitors) their lights the whole sheband. Definetely something to be expierienced now a lot of youlmay not give a poop and just like to have a good time and "thrash about and that's cool but BLACK FLAG is very fortunate to have hooked up with Rat Sound and I think it's important to let you know just how much it means to us so hopefully it could mean something to you as well.

I guess that"ll do it for now, please look for the BLACK FLAG LIVE 85 record coming out soon, and we look forward to seeing uou in 86.

WHO'S GOT THE 10½? thats the title of the forthcoming new BLACK FLAG live record and cassette. The answer to the question though? Well I'm not telling and I don't even want to think about how and on whom that thing is being used! Anyway, before I get myself in any more trouble, lets just say that this live recording will be released in it's long form about 64 minutes on cassette and short form (about 40 minutes) on record.

LIVE '85- WHO'S GOT THE 10½? was recorded using the Doo-Fish mobile recording studio. The "Doo Fish mobile" recording studio is built into a truck and is centered on an Otari 16 track machine.

That was '85 though, and this is '86. BLACK FLAG is planning to be on tour for most of the first half of the year. This will be our last tour for a while. Even though I am not generally one to dwell on sentimentality too much, this tour will most likely bring out a few such feelings in me.

PAINTED WILLIE will play the middle position on the tour. I had a hand in producing their debut album, MIND ROLLING, which will be released on SST RECORDS in February. I could give you a string of adjectives to describe this band, but one listen is worth a thousand words.

The opener, GONE, features myself on guitar. The rhythm section includes Andrew Weiss on bass and Sim Cain on drums. And it is a GREAT rhythm section. Andrew and Sim are from New Jersey where they have played with Depressive Mic and the Scornflakes. Right now, we are working on the debut GONE album, entitled "LET'S GET REAL GONE FOR A CHANGE". GONE among other things, represents the culmination of many ideas that I've been working on for a while.

How many times have writers fooled me. How few times has someone's music fooled me. How about lets' get Ronald Reagan on guitar, Tip Tohannon on bass, and Craig "Go back to Daley City" Lee on drums. What a groove! These guys could play some mean death rock (death to art, death to thought, death to life!) with Hunley, the band's already got a gimmick. Let's get a jam happening. It might be revealing- maybe too revealing.

Speaking on that sort of mentality, this is a very conservative time we live in. Not many artists really trying to do much. All important are career moves, production, breaks, ect. Not many people just playing what they feel with and for other people. I am glad to be able to be honestly proud of every BLACK FLAG recording. It doesn't matter what anybody says. I know I no set out! That feels good.

SST RECORDS is the label that does not ask it's artists to kiss anyones ass. If we are to have a tradition, that's a fine one.

See you in a while.

## JELLO BIAFRA???

My address is 977 Guerrero.
My occupation is Vocalist for 'Dead Kennedys' punk rock group.
My age is not a day over 39
My qualifications for office are:
I don't want to see San Francisco's spunk muzzled in the name of law and order and tourist dollars.

I will ban automobiles, regular squatting in unoccupied buildings, auction off all high city government positions, clean up market street by requiring downtown businessmen to wear clown suits and tear down Pier 39.

Police officers should be required to run for election. The neighborhoods they patrol would vote yes or no confidence.

I will ease tension in the city by erecting statues of Dan White throughout town. The Parks Department will supply eggs, stones and tomatoes to throw at them.
